

INSTRUCTIONS FOR REPLACING A CORAVIN™ 1000 NEEDLE

CORAVIN™

! WARNING | Avoid injuries from needles. Needles are sharp, please handle them carefully.

REMOVING THE NEEDLE

1. Slide the clamp down until it snaps into place.

2. Unscrew the needle grip at the top of the needle to release it. The needle will drop down.

3. Tilt the needle slightly and gently remove it from the unit.

CORAVIN™

REPLACING THE NEEDLE

! **WARNING** | Avoid injuries from needles. Needles are sharp, please handle them carefully.

1. Open the plastic tube containing the new needle and carefully remove. Put the old needle into the plastic tube before discarding. Always grab the needle by the needle grip.

2. Hold the new needle by the needle grip, then tilt and slide the pointed side back into the needle guide.

3. Screw the needle grip back into the unit until securely fastened.

4. Check that a Coravin™ Capsule has been inserted and press the trigger to ensure the gas is flowing through the needle.

5. Your Coravin System is now ready to use.
